# Smart Lockers & PC Locs Cloud

## Manage Devices and Smart Lockers from the PC Locs Cloud™

Combining powerful software with FUYL Tower Smart Lockers  
to improve workflows and manage devices.<sup>1</sup>

### Workflow Features

#### Check-in / Check-out Workflow.

Employees or guests can easily check out devices as needed. Designate who can access FUYL Towers in advance or on the fly. PC Locs Cloud can track who has taken a specific device from a specific Tower and when it has been returned.

#### Shared Device Workflow.

Employees or guests can easily share the same set of devices. Pre-set access to specific Towers or bays to limit who is able to access specific devices. Plus, track when a device has been taken and when it has been returned.

#### Break / Fix Workflow.

Reduce device downtime by streamlining your frictionless break/fix workflow. Users can easily drop a broken device in the FUYL Tower and retrieve a new device while theirs is being fixed.

#### Loaner Program Workflow.

Any time loaner device is needed, simply grant that person access to a designated compartment, Tower or Tower Node. Track who took the device, when it was taken, and when it has been returned.

### Smarter Device Management Saves Time and Money

PC Locs Cloud-Based FUYL Towers make life easier. PC Locs Cloud grants admins complete control of their organisation's FUYL Tower Smart Lockers from a centralised, web-based portal and allow organisations to reach their goals by saving a considerable amount of time managing mobile devices. PC Locs Cloud together with FUYL Tower Smart Lockers are designed and developed with extreme consideration for the end user, solving pain points and improving workflows specific to their needs.

#### ✓ Automate Manual IT Processes.

Streamline delivery and management of broken device exchanges, shared device checkouts or loaner device programs.

#### ✓ Restrict/Authorise Device Users.

Admins can pre-authorise users to Tower nodes, specific Towers or even individual bays to automate who can access items inside Towers.

#### ✓ Quickly Assign Tower Access.

Remote bay visibility allows Admins to know if bays are available or unavailable to efficiently provide users access to assets inside.

#### ✓ Provide Contactless, Self Service.

Cloud empowers users to self-serve devices at their convenience to maximise device uptime and protect Tech Team's time.

#### ✓ Hold Device Users Accountable.

Ensure device are cared for and properly returned by tracking who accessed a bay and when it was accessed to add user accountability.

#### ✓ Enjoy Long-Term Flexibility.

Reconfigure your Cloud settings as your mobile device needs or workflows change or integrate Cloud with external systems to streamline processes even further.

# FUYL Tower Pro 5 & 15™

Charge, store, secure and manage assets for most mobile devices.<sup>1</sup>

## FUYL Tower Pro 5™

**Capacity:** 5-10

**Part #:** PCL3-10465

Product Specs: 593 (H) x 528 (W) x 480 (D) mm  
Product Weight: 35 kg

## FUYL Tower Pro 15™

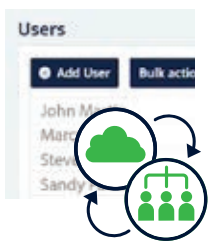

**Capacity:** 15-30

**Part #:** PCL3-10467

Product Specs: 1696 (H) x 523 (W) x 478 (D) mm  
Product Weight: 88 kg

*Optional network kits available. See below for details.*

## Features

### Manage User Access to Towers with External Directory Integration.

Integrating your organisation's Active Directory, Google Workspace<sup>2</sup>, or other LDAP-compatible directory simplifies and centralises Admin control of user access to FUYL Towers. If you prefer not to integrate, a built-in User Director is also available to manually add and manage users.

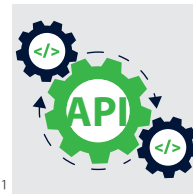

### Manage Multiple Towers from One Centralised, Web-Based Portal.

Give designated admins detailed access to view and manage any number of Towers. Efficiently manage Towers by cascading settings to multiple Towers, groups of Towers or groups of users with "bulk operations", "station groups" and "user groups".

### Charge Quickly and Store Safely so Devices Are Always Ready for Use.

All bays contain a power outlet and a 36W USB-C Power Delivery (PD) port so you can securely charge almost any device at the fastest rate possible: iPads, Tablets, Laptops, mobile phones, Chromebooks and more.<sup>1</sup>

### Integrate PC Locs Cloud with External Systems.

Take device management to the next level. Using Cloud API and webhooks, PC Locs Cloud can be integrated into external and/or existing IT infrastructure.

## Smarter mobile device management for any workflow.

Automate manual processes for managing mobile devices to reduce wasted time, minimise device downtime, maintain devices with zero human interaction, provide secure charging on demand and much more.

Check In/Out    Break/Fix    Shared Devices    Loaner Devices    Public Charging

<sup>1</sup>Must be on a compatible Google Workplace plan. <sup>2</sup>Network switch not included with network kit.

## FUYL Tower 15 Network Kit\*

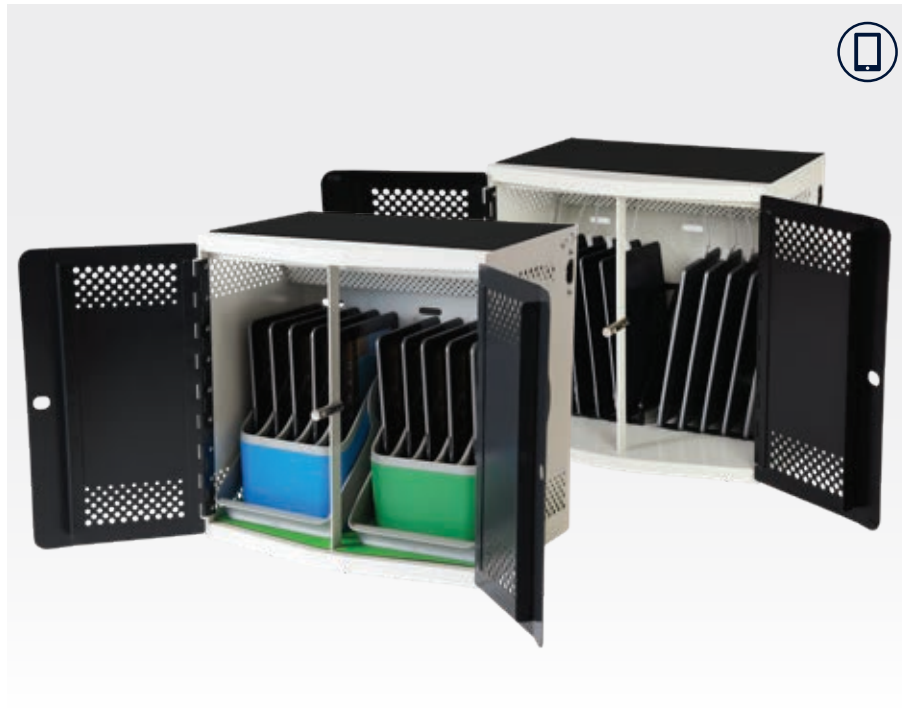

**Part #:** PCL3-10224

Product Specs: 153 (H) x 531 (W) x 478 (D) mm | 13.5 kg

# Charging Stations

# iQ 10 Charging Station with USB-C PD™

Quickly charge, store and secure up to 10 iPad and Tablet devices.<sup>1</sup>

## iQ 10 Charging Station with USB-C PD™

Capacity: Up to 10

Black Part #: PCL7-10481

Product Specs: 410 (H) x 405 (W) x 322 (D) mm | 13.8 kg

*Baskets and racks included (pictured above).*

## Features

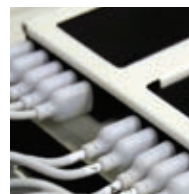

**Efficient PD Charging.** Quickly charge 10 devices at once at 30W of power per USB-C port. USB-C PD (Power Delivery) is a fast charging technology that delivers much higher levels of power than standard charging when connected to a supported device.

**Baskets by PC Locs.** Slotted device Baskets by PC Locs make device deployments faster, safer and more efficient. iQ 10 Charging Stations also come equipped with device racks. Simply choose which you prefer. Or use a combination of both to accommodate your devices or needs.

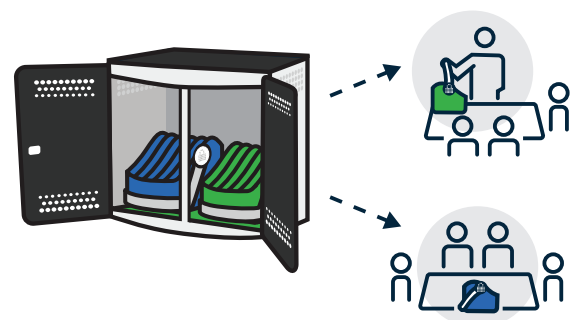

**Wall or Desk Mountable.** iQ 10 Charging Stations are designed to adapt to your surroundings. Transform any wall or counter into a secure area for charging mobile devices while taking up only minimal space.

**Organised Cables.** Minimise cord chaos by keeping cables secure once and for all. Cables stay organised in the unique top channel, allowing you to plug in devices quickly after each use. Excess from each cable is stored in a separate compartment, keeping your station neat and tidy.

## Perfect for Shared Use.

Not enough devices to go around? No problem. Organisations can now easily share mobile devices between rooms or locations without the fuss. Simply grab a Basket or two of devices and transport them safely and easily to just about anywhere you want to go. The iQ Charging Stations also come equipped with device racks.

## CarryOn with USB-C PD™

Charge, store, secure and carry iPad and Tablet devices.<sup>1</sup>

### CarryOn (USB-C)™

**Capacity:** Up to 5  
**Black Part #:** PCL2-10502

Product Specs: 303 (H) x 183 (W) x 313 (D) mm | 2.5 kg

## Features

**Charging efficiency like no other.** Quickly charge 5 devices at once at 30W of power per USB-C port. USB-C PD (Power Delivery) is a fast charging technology that delivers much higher levels of power than standard charging when connected to a supported device.

**Organised Cables.** Minimise chaos by keeping cables secure once and for all. Cables stay organised in the unique bottom compartment, allowing you to plug in devices quickly after each use. Excess from each cable is stored in a separate compartment, keeping your station neat and tidy.

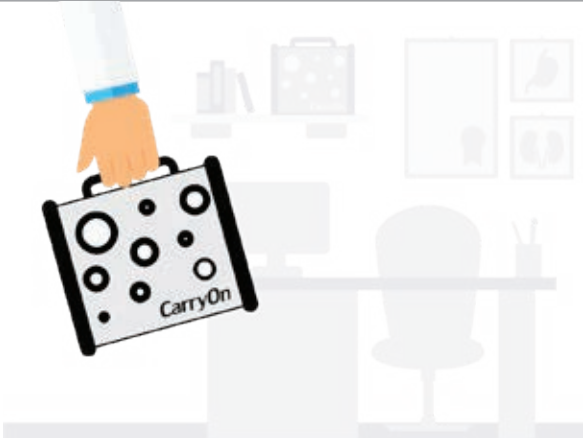

**Familiar, yet unique.** The CarryOn is designed to store up to 10" Tablets and accommodates devices with a variety of cases. The acrylic door includes a keyed lock to keep devices safe—and as for storing the CarryOn itself, a wall mount kit is included in the package.<sup>1</sup>

**Ultra Mobile. Ultra Compact. Easy.** This station takes portability to the next level. The CarryOn allows you to carry five devices, together with all the charging hardware and cables, in one neat and compact unit.

## Small but Mighty.

At just two and a half kilos, the CarryOn won't weigh you down. Its aluminium construction and built-in handle make it light, durable and ready for travel. Plus, the small footprint and wall-mounting bracket keep desk or counter space free from clutter.

# Carrier Charging Stations™

Charge, store, secure and carry Laptop, Tablet and iPad devices.<sup>1</sup>

## Carrier 10™

**Capacity:** Up to 10  
**Part #:** PCL 8200

Product Specs: 668 (H) x 420 (W) x 340 (D) mm | 20 kg

## Carrier 15™

**Capacity:** Up to 15  
**Part #:** PCL8-10110

Product Specs: 708 (H) x 596 (W) x 340 (D) mm | 29 kg

*Baskets and racks included (pictured above).*

## Features

**Future proof.** Efficiently charge up to 10 or 15 of just about any device simultaneously, with or without most cases. The Carrier Stations are designed to accommodate as your needs and devices change.<sup>1</sup>

**Wall or Desk Mountable.** The Carrier Charging Station is designed to adapt to your surroundings. Transform any wall or counter into a secure area for charging mobile devices while taking up only minimal space. Perfect for rooms or areas where space is scarce.

**Organised Cables and Hidden Power Bricks.** Minimise cord chaos by keeping cables secure once and for all. Cables stay organised in the unique top channel, allowing you to plug in devices quickly after each use. Power bricks are stored in a separate compartment out of sight.

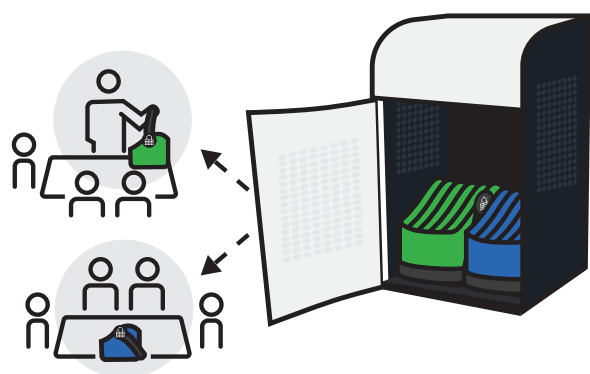

**Baskets by PC Locks and Slotted Device Racks.** Slotted device Baskets by PC Locks make device deployments faster, safer and more efficient. Slotted device racks also included to accommodate larger devices.<sup>1</sup>

## Perfect for Shared Use.

Not enough devices to go around? No problem. Organisations can now easily share mobile devices between rooms without the fuss. Simply grab a Basket or two of devices and transport them safely and easily to just about anywhere you want to go.

**Bonus!** The Carrier Charging Stations also come equipped with device racks for storing larger Laptops and Chromebooks.<sup>1</sup>

## Putnam Charging Stations™

Charge, store and secure iPad and other Tablet devices.<sup>1</sup>

**USB-C**  
version  
coming  
soon

### Putnam 8™

**Capacity:** Up to 8

**Part #:** PCL10-10179

Product Specs: 378 (H) x 311 (W)  
x 354 (D) mm | 10 kg

### Putnam 16™

**Capacity:** Up to 16

**Part #:** PCL10-10161

Product Specs: 706 (H) x 311 (W)  
x 375 (D) mm | 20 kg

*Optional pedestals available. See below for details.*

## Features

**Efficient charging.** With 2.4 amp charging at each port, Putnam 8 and 16 Charging Stations can charge 8 or 16 devices at once.

**External charging display.** Easily see the charging status of each individual device. Each slot is tied to an external, LED back-lit number that shows if a device is charging (red), charged (green) or not plugged in/missing (no light).

**No keys to worry about.** With an integrated mechanical combination lock, there are no keys to worry about. In the event of a forgotten combination, we've included a master override key.

**Pre-wired with Lightning or Micro-USB Cables.** Equipped with 8 or 16 purpose-built MFi-approved Lightning cables or Micro-USB cables, the Putnam Charging Stations come with everything you need to lock and charge your iPad or Tablet devices.<sup>1</sup>

## Stackable and Wall-Mountable.

Combine a Putnam 8 with a Putnam 16 to charge 24 devices—or utilise 2 Putnam 16's to get to 32 slots.

### Putnam 8 or 16 Pedestal

**Part #:** PCL10-10171

Pedestal Specs: 311 (W) x 165 (H)  
x 326 (D) mm | 3.5kg

### Putnam 8 Wall Mount Kit

**Part #:** PCL10-10180

### Putnam 16 Wall Mount Kit

**Part #:** PCL10-10175

# Putnam 18-C Base™

Charge, store and secure Chromebooks, small Laptops and Tablets.<sup>1</sup>

## Putnam 18-C Base™

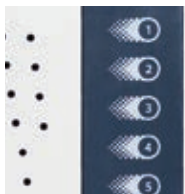

**Capacity:** Up to 18

**Part #:** PCL10-10230

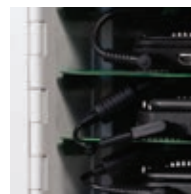

Product Specs: 787.5 (H) x 406 (W) x 455 (D) mm | 35 kg

An optional pedestal allows you to charge 36 devices (two stacked Putnam 18-C's) with one outlet plug. It is equipped with ECO Safe Charge™, so you won't have to worry about electrical overload while charging all 36 devices at one outlet.

## Features

**Numbered slots.** By assigning each device its own slot number, it's easy to know which devices are missing at the end of the day with only a quick glance inside the Charging Station.

**Say goodbye to tangled cords.** It's virtually impossible to tangle the charging cables in the Putnam 18-C Base Charging Station. The cords are just the right length to reach each device.

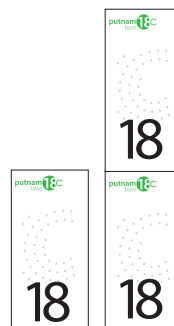

**Organised cable management.** The Putnam 18-C Base Charging Station has a removable side panel to easily access power bricks. The Power Module is pre-fitted with elastic straps for holding your power bricks in place and is removable and replaceable for future upgrades.

**No keys to worry about.** With an integrated mechanical combination lock, there are no keys to worry about. In the event of a forgotten combination, we've included a master override key.

## Modular and Stackable.

Organisations can utilise two Putnam 18-C Base Charging Stations for a total of 36 slots. If congestion around the station is your main concern, simply place multiple Putnams in different areas of the room to spread out the distribution of devices. Or to save space, stack two Putnams on top of one another with an optional pedestal.

### Putnam 18-C Base Pedestal

**Part #:** PCL10-10246

Pedestal Specs: 164.5 x 394.5 x 430.5 mm | 8 kg

# Revolution Cabinet™

Charge, store and secure Chromebooks, Laptops and Tablet devices.<sup>1</sup>

## Revolution 32 Cabinet™

**Capacity:** Up to 32

**Part #:** PCL6-10195

Product Specs: 1415 (H) x 415 (W) x 805 (D) mm | 55 kg

Multi-use storage area can be used to store and hide your device power packs and additional accessories.

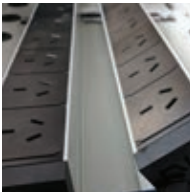

Prefer the mobility of our baskets? Large Baskets by PC Locs can be purchased to replace the device racks.

## Features

### High Device Capacity, Smaller Footprint.

For areas that are tight on space but need to charge, store and secure a greater amount of devices, the Revolution 32 Charging Cabinet is just the ticket. This tall, slim station takes up half the footprint of a traditional Charging Cart.<sup>1</sup>

### Easy Cable and Charger Management.

The flexi-power system is designed to accommodate a variety of devices on the market, these power strips can both be angled or slid on a track to make space for just about any type of device cords or power bricks.

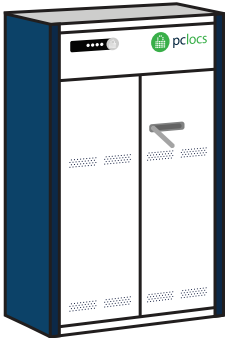

**Under the Hood.** Bricks and cables are hidden in two spacious compartments keeping them secure yet easy to access. Charging cables hang down in front of devices, allowing users to plug them in quickly and easily after each use.

**External Charging Status Display.** The remote-controlled ECO Safe Charge™ Power Management System charges multiple laptops safely and efficiently. External lights allow you to easily see if your devices are charging.

## Small Footprint. Big Power.

You no longer have to give up valuable space to accommodate a greater number of devices. The Revolution 32 Charging Cabinet packs as much charging power and capacity as a traditional Charging Cart, yet only takes up half the footprint. This cabinet is perfect for device environments where devices stay in the building or where devices need to be charged continuously throughout the day.

## Safe Power Management.

Never blow a fuse again. ECO Safe Charge™ handles power requirements of almost any device by staging the availability of power. Plus, it ensures that devices are not overcharged, increasing their longevity.

# Charging Carts

## Carrier Charging Carts™

Charge, store, secure and transport almost any mobile device.<sup>1</sup>

### Carrier 20 Cart

**Capacity:** Up to 20

**Part #:** PCL8-10130

Product Specs:  
934 (H) x 490 (W) x 707 (L) mm | 49 kg

### Carrier 30 Cart

**Capacity:** Up to 30

**Part #:** PCL8-10136

Product Specs:  
934 (H) x 670 (W) x 737 (L) mm | 62 kg

### Carrier 40 Cart

**Capacity:** Up to 40

**Part #:** PCL8-10142

Product Specs:  
934 (H) x 670 (W) x 855 (L) mm | 72.3 kg

## Features

*Optional racks and floor anchor kit available. See accessories on pages 19-20 for details.*

**Top Loading Cart Design.** Access from multiple sides at once allows for quicker distribution of devices, plus no more bending down to remove devices from a bottom shelf. Better yet, the top-sliding lid doubles as a work surface.

**Organised Cables and Hidden Bricks.** Minimise Cart clutter by holding down cables once and for all. Cables stay organised in the unique side channel, allowing you to plug in devices quickly after each use. Power bricks are stored in the bottom of the Cart, out of sight.

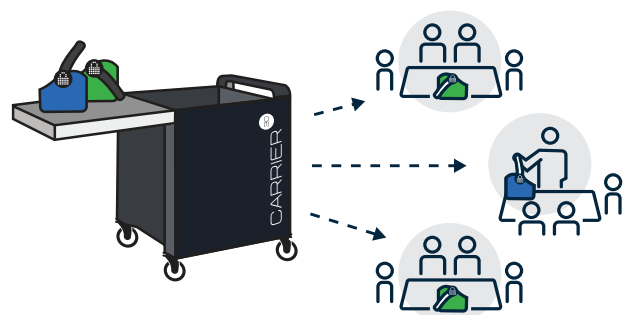

**Baskets by PC Locs.** Slotted device Baskets by PC Locs make device deployments faster, safer and more efficient. Slotted device racks are also available to accommodate larger devices.<sup>1</sup>

**Future-Proof Design.** Imagine the costs and time your organisation would save if you don't need to replace your charging solutions every time you roll out new mobile devices. Future-proof charging solutions combine universal charging, open-concept designs and durability.

## Perfect for Shared Use.

Not enough devices to go around? No problem. You can now easily share a small handful or a whole cartload of mobile devices between multiple areas without the fuss. When teamed up with our baskets, our lightweight, easy-to-maneuver Carts allow you to transport mobile devices quickly, safely and easily.

# Revolution Carts™

Charge, store, secure and transport Laptops and other devices.<sup>1</sup>

## Revolution 16 Cart

**Capacity:** Up to 16

**Part #:** PCL6-10193

Product Specs: 903 (H) x 436 (W) x 660 (L) mm | 50 kg

## Revolution 32 Cart

**Capacity:** Up to 32

**Part #:** PCL6-10194

Product Specs: 903 (H) x 615 (W) x 835 (L) mm | 76 kg

## Features

**ECO Safe Charge™ with external charging status display.** Efficiently charge 16 or 32 devices simultaneously. A remote control is included which means you don't need to physically be next to the Cart to turn it on or off.<sup>1</sup>

**Easy cable and charger management.** The flexi-power system allows you to make adjustments to the power boards. Simply tilt or slide them into your preferred position to accommodate different sized power bricks.

**Safe and secure.** The stainless steel locking bar, together with the hardened steel padlock, will ensure your devices are secure.

**External Charging Status Display.** The remote-controlled ECO Safe Charge™ Power Management System charges multiple laptops safely and efficiently. External lights allow you to easily see if your devices are charging.

## Small Footprint. Big Power.

Tight on room? You no longer have to give up valuable space to accommodate a greater number of devices while still enjoying all the benefits of a mobile cart. The Revolution Cart packs plenty of capacity in a small and compact design, perfect for shared-use devices. Plus, there's an additional storage area for your accessories and peripherals in the bottom of the Cart.

Additional Storage Area

# Accessories

## Baskets by PC Locs™

<b>Part numbers:</b>	Large Baskets: PCL 7056 Small Baskets: PCL 7052
<b>Capacity:</b>	Up to 5 devices per basket.
<b>Compatibility:</b>	<b>Large Baskets:</b> Chromebooks, Laptops, iPad and Tablet devices up to 13 inch. <b>Small Baskets:</b> iPad and Tablet devices up to 11 inch.
<b>What's included:</b>	Four (4) Baskets (1x Green, 1x Red, 1x Blue and 1x Yellow).

## USB-C to USB-C Cables

<b>Part number:</b>	PCL7-10500
<b>Compatibility:</b>	Durable, right-angle cables designed for USB-C devices and for easy plug in. Cables are 300mm long.
<b>What's included:</b>	Five (5) USB-C to USB-C Cables.

## USB-C to Lightning Cables

<b>Part number:</b>	PCL7-10501
<b>Compatibility:</b>	Durable, right-angle cables designed for USB-C compatible Apple devices and for easy plug in. Cables are 300mm long.
<b>What's included:</b>	Five (5) MFi-approved USB-C to Lightning Cables.

## Lightning to USB-A Cables

<b>Part numbers:</b>	300mm Length: PCL7-10188 1200mm Length: PCL-7151
<b>Compatibility:</b>	Durable, thick over-moulded right-angle cables designed for USB-A to Lightning Apple devices and for easy plug in. Cables are 300mm or 1200mm long.
<b>What's included:</b>	Five (5) MFi-approved USB-A to Lightning Cables.

## Cart Floor Anchor Kit

<b>Part numbers:</b>	Carrier Cart: PCL8-10010 Revolution Cart: PCL6-10216
<b>Features:</b>	For additional security, attach the heavy duty anchor kit for securing the Carrier Carts and Revolution Carts to the floor while not in use.

## Carrier Device Racks

<b>Features:</b>	Designed for the Carrier 20 Cart, Carrier 30 Cart (pictured) and the Carrier 40 Cart. The Device Racks are designed to replace the Baskets to allow larger devices to fit in the Carrier Carts.
<b>Part Numbers:</b>	Carrier 20 (2x 10 racks): PCL8-10150 Carrier 30 (2x 15 racks): PCL8-10106 Carrier 40 (2x 20 racks): PCL8-10108
<b>Maximum Device Thickness:</b>	Carrier 20 (2x 10 racks): 33 mm Carrier 30 (2x 15 racks): 33 mm Carrier 40 (2x 20 racks): 32 mm

# About PC Locs

We are an innovative company combining the power of software and hardware to revolutionise the way organisations are managing Tablets, Laptops, Chromebooks, phones and other physical assets. Our mission is to ensure organisations aren't losing critical working or learning time due to a broken, lost or missing device by providing device accountability and instant access.

During our 25 years of experience, we have listened to and come to understand many of the challenges highly-successful organisations face when rolling out technology. We understand that relentless broken device exchanges, inefficient daily device check out/in, unsecured storage, and unreliable charging are ravaging time and tech budgets.

We exist to solve these ever-growing problems by offering an efficient process to ensure Laptops, Tablets, Chromebooks and other assets are always accessible and ready to go when needed. Our portfolio of Cloud-Connected Smart Charging Lockers, Charging Carts with Baskets and Compact Charging Stations will automate, if not eliminate, many frustrations stemming from digital transformation.

So, whether managing mobile device technology, or using it to work or learn, PC Locs solutions will not only save you time, money and resources, they will also make life easier.
